IT ASSET PROCUREMENT

OFFSITE PARTNERS WITH MULTIPLE VENDORS AND DISTRIBUTORS TO SOURCE IT ASSETS, AT THE BEST PRICE, FOR OUR CLIENTS.

WHAT IS IT ASSET PROCUREMENT?

IT asset procurement refers to all the measures involved in ensuring an organization's assets are acquired, configured, deployed, maintained, and properly disposed of once antiquated. IT assets include hardware - from servers and switches to laptops, keyboards, cables and more - software systems, and licensing.
