RANGE OF IT SERVICES
DESIGNED WITH UPTIME IN MIND

At the core of OFFSITE's service offerings, is our Tier III, SOC 2, Type 2 data center in Kenosha Wisconsin. This facility is in our corporate HQ & supports the company's 24x7x365 Operations Center.

The team is cross trained in both network operations & security operations. Given that most of our engineers & analysts, start out as Level 1 support personnel, everyone in the company is trained to be helpful & sensitive to the user experience.
